Olivier Léger advises PE fund sponsors on U.S. tax matters at all stages of their operations, with a dual focus on fund formation and portfolio company acquisitions and divestitures.

On the fund formation front, Olivier's contribution to VC funds, buyout funds, funds-of-funds and other PE fund clients begins with providing structuring advice to minimize the tax burden to the various fund constituents. In implementing the desired structure, and negotiating and drafting fund documents, Olivier provides clear and commercial solutions that allow maximum flexibility to execute on deal opportunities and facilitate the day-to-day operation and administration of the fund vehicles. Olivier also advises fund sponsors with respect to GP matters, secondary transfers, bridge financings, as well as isolated transactions such as GP sponsored secondaries (fund recaps) and the sale of management company interests. Separately, Olivier regularly represents funds-of-funds in connection with their primary and secondary investments in other funds.

On the transactional front, Olivier advises PE fund sponsors on structuring leveraged buyouts and other M&A transactions in a tax-efficient manner, and planning for post-closing operation of the businesses so as to maximize available tax savings. Olivier also regularly advises closely held corporations and their individual shareholders with respect to various U.S. tax matters, including QSBS. In addition, Olivier advises public and privately owned companies with respect to taxable and tax-free mergers and acquisitions, joint ventures, credit facility arrangements, and post-transactional integration, as well as inbound and outbound transactions.
